## Potato Shippers Incorporate Association.

Articles of incorporation were filed at Louisville by the Kentucky Potato and Onion Shipping Association, with a capital stock of \$50,000 dollars, divided into 500 shares of \$100 each. The object of the association is to purchase and ship potatoes, onions and other farm products.

One of the stockholders said that the main object was to protect producers and shippers from the overstocking of different markets.

IT IS EASY WORK

when you are well, to rub and scrub, but when the back aches and the head throbs, a woman's work is hourly torment.  
No woman can be strong and healthy of body who is the victim of those womanly diseases which are often responsible for feminine sufferings. Women who have used Dr. Pierce's Favorite Prescription for the cure of diseases of the womanly organs, say that work doesn't tire them any more. 'Favorite Prescription' regulates the periods, dries enfeebled drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.  
There is no alcohol in 'Favorite Prescription,' neither opium, cocaine or any other narcotic.  
'I had poor health for nine years (ever since the birth of my child),' writes Mrs. Armistead Watkins of Acme, Kanawha Co., W. Va. 'Had female weakness, was very irregular and would suffer untold misery. Our family doctor did not do me any good and I concluded to write to you. When I wrote I had no idea that I would ever get well, but when your letter reached me I began to have hope. I commenced taking Dr. Pierce's medicines as directed and began to improve in strength. I was soon able to do the work for my family of six. I think there never were such medicines in the world. I took eight bottles, three of 'Favorite Prescription' and five of 'Golden Medical Discovery' and two vials of 'Pellets.'  
Dr. Pierce's Pellets cure constipation.

D. R. Tevis defeated C. E. Woods for Mayor of Richmond by 47 plurality in the Democratic primary.

## CLARK COUNTY ITEMS.

T. C. Robinson and F. C. Shouse delivered 18,000 or 20,000 pounds of tobacco to N. K. Foster at 7 1/2c.

Miss Alice King, of Wades Mill, who sustained a serious stroke of paralysis, is improving and hopes are entertained for her recovery.

J. C. Lewis sold to Jesse Glover the farm, containing fifty-two acres, known as the Joseph Ramsey place, for \$50 per acre, possession given March 1.

The attendance upon the annual meeting of the Clark County Sunday School Convention was very small, as to members, but well attended as to Sunday School teachers.

The \$50 additional salary allowed John S. Reese for the city assessment at the adjourned meeting of the Council has been vetoed by Mayor Garner. At the regular meeting of the Council Mr. Reese's salary of \$250 was allowed him. The Mayor took the grounds that the salary having been fixed, allowed and ordered paid there was no law for an additional salary.

## COURT-DAY SALES.

There were about 150 cattle at the Seabee Stock Yards and 145 head at the Wade Stock Yards. It was one of the dullest days in a long time. Sales were slow.

H. S. Bush bought of Owen & Hays fifteen heifers at \$26.50 each, about 4c.

bearing date 1828. It is about half the size of an old-fashioned copper cent, and has upon it 12 stars. Her husband, now deceased, came into possession of it several years since while keeping store at Camargo, when he gave the man who found it near that place, 10 cents worth of tobacco in exchange for it. It is in a remarkably good state of preservation, and one peculiarity is the fact that it bears only 12 stars, whereas all old coins have 13.

## Great Disaster in Coal Fields.

The Pocahontas Coal Field on Elkhorn Creek, in West Virginia, was devastated by high waters. In different towns the estimated loss of life is 100 and property two million dollars.

The disaster rivals the Johnstown loss in 1889.

## The Ohio Republican State Convention

Met at Columbus on Tuesday and transacted its business in 3 hours. The intense heat was protesting and Chairman Hanna not only cut short his own speech, but also those of others.

In those three hours the convention nominated a full State ticket, adopted its declaration of principles, and named Foraker as the Republican candidate for re-election as United States Senator, completed the party organization for the campaign, and transacted other business.

## THE PLATFORM.

The report of the Committee on Resolutions after upholding the party in State, National and insular affairs, says, in part:

The principle of protection has achieved its most signal triumph in the results of the Dingley tariff law. It has given us marked prosperity at home and a rapidly growing export trade which are the envy of the world. Tariff schedules which will protect American labor against the low wages paid foreign labor must be maintained. We reaffirm all declarations, heretofore made by the Republican party in favor of reciprocity and urge the making of such additional treaties, based on the protective principle, as will further extend our commerce.

We favor such legislation as will restore our merchant marine so that our growing foreign trade may be carried in American-built vessels, managed by American sailors, under the American flag.

We urge the speedy construction of an American ship canal through the American isthmus.

We recognize the right of both labor and capital to combine when such combinations are wisely administered for the general good, but combinations which create monopolies to control prices or limit production are an evil which must be met by effective legislation, vigorously enforced.

## What?

"At Berkley, Cal., Dr. J. G. Jessup, a dentist, was shot and fatally wounded by Rev. Charles Adams, who was attempting to whip his daughter when Jessup interfered."

It may sometimes be necessary for a preacher to correct his child by whipping, but how could he be excused for shooting a man? What business had he with a pistol?

## Letter From the Orient.

Hazel Green Herald.

CABIOR, P. I., April 7, 1901.

Editor Herald:—In my last letter I believe I told you I would write a more elaborate description of these isles next time, and I will now proceed to make my word good:

The Philippines are a bunch of trouble on the horizon of civilization. They are bounded on the west by Hoodooism and smugglers, on the north by rocks and destruction, on the east by typhoons and monsoons, and on the south by cannibals and earthquakes.

Malarial fever is so prevalent that on many occasions the islands have been shaken as if by a chill, or because of the vibration of the population. The climate is a deceptive combination of changes, well adapted to raising Cain.

The soil is very fertile and large crops of insurrection and treachery are produced. The inhabitants are very industrious, their chief occupation being trench digging and the making of bolos. Their houses are made chiefly of bamboo and landscape.

We have to watch these natives like a cat watching a mouse. Hence in Cabior one company of us looks after the town.

The Filipino's marriage services are very impressive, especially a clause wherein the wife is given the privilege of working as much as her husband desires. The chief amusements are cock fighting and stealing. The principal diets are fried rice, boiled rice, stewed rice and rice. The beast of burden is the caribou, and should a journey of 100 miles be attempted with this animal, the driver would die of old age before he reached his destination.

The natives are friendly at the point of your gun; and the climate is pleasant and healthful for mosquitos, ants, bats, lizards, snakes, tarantulas and alligators. The soil is finely adapted for raising aroma and breeding disease. Such is the condition of this dirty place where Americans are dying daily to save sugar for the trusts.

You may not regard this as a good account of the place, but it is true.

HERBERT H. GIST,  
Co. L, 22d Inf.

## Are You a Dancer?

Bishop McCloskey announces, through his official organ, his condemnation of dancing at picnics. He says: "We have no hesitation in saying, in connection with this, that many of the dances in vogue, and engaged in, particularly on such excursions, and at like entertainments in the name of charity, are an abomination and a desecration. They are, to say the least, simply shameful and immoral. They shock and scandalize, and should bring the blush to the cheeks of self-respecting Christian men and women. They imperil, gravely imperil, the souls of all, especially the young, and many there are who come forth from such dances with smitten conscience and blighted souls, and who trace their downward career and misery in after life to them. We speak severely, but in all candor. In so doing we are not advancing merely our own views, but the unanimous teachings of all the fathers, doctors and catechists of the church. With one accord they inveigh against dancing and implore—urgently implore—Christians to avoid them."

Seven tobacco re-handling houses and thirty-two dwellings and other buildings were destroyed by fire at Mayfield at midnight, causing a loss of over \$150,000.

## Marriage Costs \$1.

The order issued by Gen. Wood fixing \$1 as the marriage fee in Cuba, whether the ceremony be religious or civil, is a step of great importance. One of the evils which led the Cuban people to revolt against Spanish rule was the high cost of marriage. An expense running all the way from \$10 to \$40 was formerly necessary whether performed religiously or civilly.

## Our Trade.

The United States imported \$420,139,288 worth of agricultural products in 1900. The annual average for the past five years is \$376,369,358.

It is estimated that the exports from the United States for the current fiscal year will reach the record-breaking total of \$1,500,000,000. The increase to date over last year is stated at \$99,000,000.
